

Householder Responsibility Agreement

WEBSITES

Householders must take **full and absolute** responsibility for additional websites that are included on their whitelists.

Householders are obligated to ensure, and have full and final responsibility to ensure: that the Wordex machines owned by them or persons in their household, that have access to these sites, are suitably controlled for the protection of all users.

Onefocus Policy is to allow householders to add certain sites to their own whitelists (or have sites pointed to one machine), at their own discretion; unless anything blatantly unsuitable or inappropriate comes to our attention.

Some sites that may be legitimately required for household use such as 'Trade Directories' and 'Online Auction' sites generally contain some very unsuitable content. **It would be very unwise to make a Wordex with these sites enabled, available to children and young people without supervision.**

Where provision is made to have these sites enabled on your Wordex/s, it is on the basis of the Householder taking full and absolute responsibility for the control and use of them, Onefocus can take no responsibility.

SOFTWARE

Householders are responsible for the use of all software installed on Wordex machines owned by them or persons in their household.

Some software (e.g. Media Players) may be required for legitimate purposes. This software has the potential to be used for entertainment and to view unsuitable or damaging material, besides wasting a large amount of time. It is therefore essential that the use of this type of software is under the full control of the householder at all times.

We urge you to review your request on the basis of the above. If you deem the websites and/or software to be necessary for your household, and you agree that you as the householder are prepared to take full responsibility for the current and future content of the listed websites/software, please fill in the details below.

Please add the following to our machine serial number _____

Websites/Software: _____

I, _____ (full name of householder), have **read** the above statements and take **full and total responsibility** for the Websites and/or Software listed above. I am aware that there could be damaging content viewed now and/or in the future. I have reviewed the above and deem the listed Websites and/or Software suitable and necessary for my household.

Signature _____ Date _____ Contact Phone Number _____

If you have any questions regarding the above, please email john.mason@onefocusglobal.com

Please fax signed form to (06) 348 7431
