[quote]Sept 2004

Beloved Brethren,

This country faces a great and real threat of leadership that is morally flawed being elected to the highest executive office in the country. This has led to unprecedented exercise on the part of the Brethren universally. Our beloved brother's great concern as to the consequences of this has led to the Brethren making representation to persons in government, including those at the highest level, that most would have thought impossible.

As Brethren, we need to be on our faces to provide God a basis to come in for us in this election, realizing that the wrong man in power can do much damage. This brings to stark reality the need to review what has happened in God's direct area of government. What men have we listened to? What place have we given to the Lord's direct representative?

The current voice of the Lord taking another youth is very strong. Our beloved brother currently, in his great love for the Brethren and his desire to save the most possible, has pursued a relentless schedule of service, bringing in ministry to help the Brethren see what we missed in his father's service.

It is opened to all of us to become convicted on the influences we have been under and declare ourselves. As we become suitably convicted, it will lead to a wave of repentance in our localities. The upcoming election on November 2nd is very critical and the need to see we have supported wrong men in the area of God's direct government is very real. May we provide God a basis to be propitious to the land through judging and burying the past and doing all the King has commanded, (2 Samuel 21:14).

Your brothers in Christ,

Terry Markham, Rod Diplock, Chuck Truan, Jim Southard, Jim Johnstone, Don Logan, John Boram, Eric Waskey.[/quote]
